After two years of suffering, Mr. Flegauf came to New York and was treated by several physicians. These did not agree, some calling his disease catarrh of the stomach, and others chronic diarrheau.

In speaking to a reporter about his illness Mr. Flegauf said the doctors helped him, but, with all the money he spent for advice and medicine, he was able to work only a small part of the time. Since moving to his present home, No. 517 West Forty-second Street, in New York, about a year ago, Mr. Flegauf has been so ill that his voice and hearing almost left him.

The first hot night of the year came upon the suburbs with a young moon and many stars. There is comfort in the knowledge, that so many forms of sickness are not due to any actual disease, but simply to a constipated condi-tion of the system, which the pleasant family laxative, Syrup of Figs, promptly removes. That is why it is the only remedy with millions of families, and is everywhere esteemed so highly by all who value good health. Its beneficial effects are due to the fact, that it is the one remedy which promotes internal cleanliness without debilitating the organs on which it acts. It is therefore all important, in order to get its bene-ficial effects, to note when you purchase, that you have the genuine article, which is manufactured by the Cali-
